CAREER OBJECTIVE

Aspiring professional with a strong interest in developing intuitive and effective digital solutions. Seeking an opportunity to apply my knowledge, enhance my skills, and contribute to meaningful projects in a dynamic environment.

EDUCATION

B. TECH IN INFORMATION TECHNOLOGY – 8.20 CGPA

Kamaraj College of Engineering and Technology (2022 – 2026)

HIGHER SECONDARY – 77.3%

Sri Aurobindo Mira Matriculation Higher Secondary School (2021 – 2022)

SECONDARY – 85.6%

Sri Aurobindo Mira Matriculation Higher Secondary School (2019 – 2020)

EXPERIENCE

In-Plant Training - Radical InfoSystem (15 Days)

- Learned fundamentals of web development and built responsive web pages using HTML, CSS, and JavaScript.
- Gained basic understanding of client-server interaction and web application structure.

In-Plant Training - MACVEL Software Solutions (15 Days)

- Gained exposure to MERN stack development (MongoDB, Express.js, React.js, Node.js).
- Understood basic concepts of full-stack application development and component-based design.

AI: Transformative Learning with TechSaksham - Edunet Foundation (Feb - Mar)

- Explored basic concepts of Artificial Intelligence and Machine Learning.
- Studied real-world applications of AI in healthcare using simple models.

PROJECTS

Medi-Care:

- Developed a web interface to input symptoms and display basic health-related outputs.
- Designed a clean and user-friendly layout for easy navigation and usability.

Organ and Blood Donation Website:

- Developed a full-stack web application using MongoDB and React.js with basic backend integration
- Implemented user authentication and donation request features.
- Designed responsive UI for smooth user experience.

Space Invaders (Game Project):

- Implemented a level-based desktop game in Java with scoring and dynamic gameplay elements.

SkillBridge - Online Course Learning Platform:

- Designed a learning platform using Figma for staff and student interaction.
- Created separate screens for staff and students with simple navigation.

Kamaraj MOOC (Massive Open Online Course):

- Developed a dynamic web application using PHP and MySQL.
- Implemented course management and user interaction features.
- Designed responsive and user-friendly web pages.

TECHNICAL SKILLS

Programming Languages - Java, Python, PHP(Basic)

Frontend Technologies - HTML, CSS, JavaScript, React.js (Basic)

Databases - MongoDB

Tools - Figma, Git, GitHub, VS Code

AREA OF INTEREST

- Frontend Development
- UI/UX design
- Full-Stack Development

CERTIFICATIONS

- Oracle Java Foundation Associate
- Creators of Metaverse (Phase1 and Phase 2)
- Infosys - Design Thinking
- Infosys - HTML and CSS
- Infosys - Python Basic

ACHIEVEMENTS

- Winner of Project Expo for Medi-Care.

CO-CURRICULAR ACTIVITIES

Journal & Conference:

- Kamaraj MOOC (Massive Open Online Course)

Patent – Filed:

- Medi-Care

Paper Presentations:

- Chatbot Creation Using AI
- Women Safety Device Using DL and ML

Workshops:

- Unmanned Aerial Vehicle in Industry 4.0 and Defence
